Hi Liz,

I'm pretty sure I've attached all the data and monitoring info that I've received to date. I'm sorry it's disorganized, but I haven't had a chance to organize it. There is probably a lot of overlap among the spreadsheets. I'm going to put it into some coherent shape and write a report on it in the next couple of days. It's a lot of info to go through a firewall, so please confirm receipt.

Don't hesitate to contact me if you need anything else,
Mike

Yes we should be able to grab that information. I believe Dr. Honeycutt was planning on analyzing that data.

Looping him in.

Subject: Air Monitoring Data

Following the controlled explosion, is there any way to get the most recent air monitoring data around the Crosby, Texas site?
